YOUR BACK OFFICE HERO

ELKJOB

The Vic.ai Autonomous Finance Platform processes invoices faster and more accurately than template and rules-based accounting automation solutions. Optimize your entire AP workflow with the Vic.ai platform, using AI for more accurate and efficient invoice processing and payments.

- **Maximize productivity:** Augment AP team performance with an AI-first platform for end-to-end invoice processing.
- **Achieve sustainable ROI:** Eliminate financial waste from fraud and payment delays with highly accurate AI predictions.
- **Focus on the future:** Make enlightened decisions using real-time analytics on team performance and business trends.

*"In today's economic climate, enterprises must be strategic with every dollar they spend. Vic.ai's current offerings, including Autopilot and Autonomous Approval Flows, will allow our business to keep growing at a rapid pace without requiring us to grow our workforce at the same pace."*

*- Conor Clair, Senior Finance Manager of Accounting at Milwaukee Tool*

## THE ROI OF ENLIGHTENED ACCOUNTS PAYABLE

99%

accuracy

85%

no-touch rate by month 6

5X

faster processing

83%

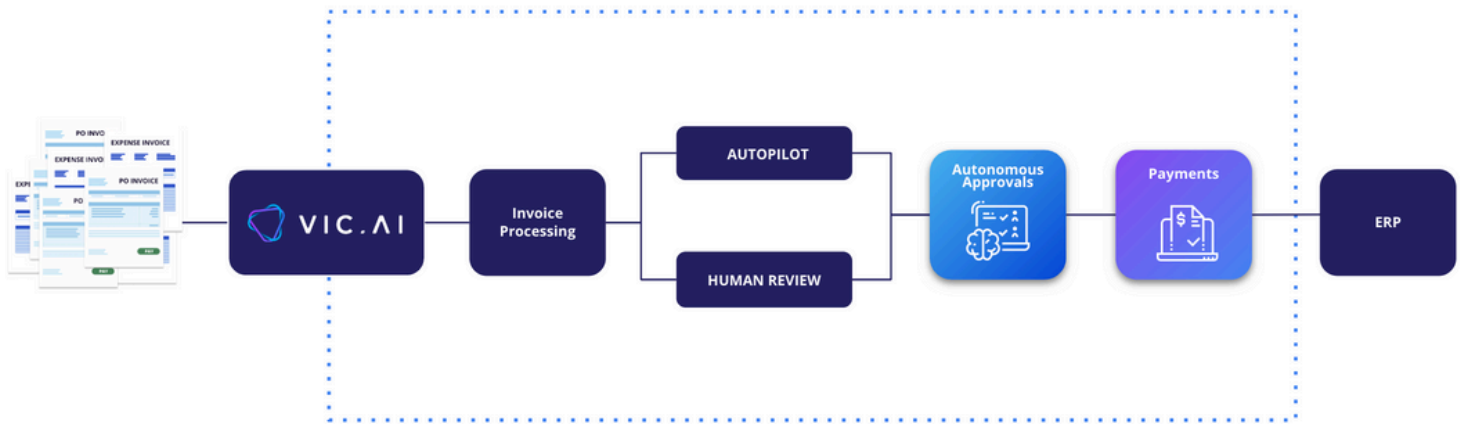

reduction in duplicate payments

More **Human**. More **Potential**.

VIC.AI

# VIC.AI

## One platform from invoice ingestion to payments

## Vic.ai goes beyond AP automation

Maximize your team's productivity with end-to-end invoice processing from ingestion to payments using Vic.ai's world-class AI and deep financial intelligence.

01

### DOCUMENT INGESTION

Ingest invoices from electronic file formats, EDIs, e-mail, PDFs, direct connections.

02

### DATA EXTRACTION

Proprietary computer vision extracts the invoice data, then understood, coded, and PO matched by AI with no templates involved.

03

### REVIEW

All relevant invoice information is predicted by AI and assigned a confidence level, and then presented to your AP team or fully automated.

04

### APPROVALS

Invoices are routed into the correct approval flow automatically or sent straight to payment if Autopilot's confidence level is met.

05

### PAYMENTS

Consolidate vendor payments into a single, automated workflow for all payment types. Save time, get early payment discounts, and reduce the risk of fraud.

06

### POST TO ERP

Integrate with all major ERPs. Vic.ai is designed to work across multiple systems. Let's streamline the AP process.
